

## Academy of Opera Professions

### COURSE ON THEATRICAL MAKEUP AND HAIRSTYLING

#### Faculty

Chiara Sofia Drossoforidis

#### 1. Applicants

The course is open to a maximum of **6 candidates** of any nationality, aged between 18 and 30. This is an exclusive educational opportunity designed to ensure intensive, personalized, and high-quality training.

#### 2. Course Objectives

The course aims to train professional figures who, as part of the production process, contribute to staging theatre, television, or film performances by designing and executing makeup and hairstyling, including special effects, wigs, and prosthetics—from the initial concept (in collaboration with costume designers and directors) to final execution during performances. This includes rehearsal makeup, ensuring smooth operation during shows (e.g., quick changes, touch-ups, etc.), as well as maintenance, storage, and archiving of materials.

The educational program is designed to develop specific skills through a historical, technical, and artistic learning pathway: **Technical: basic hairstyling and makeup techniques, special effects, knowledge of tools and materials; Artistic: study of the evolution of historical hairstyling, techniques for working with different materials; Safety: best practices in handling and applying specific materials, protecting both the makeup artist and the model, including updated COVID-19 safety regulations.**

The learning process includes multiple work experience periods, including direct support to the head of the makeup department, participating in work planning and task allocation within Teatro Coccia.

The course is designed to be compatible with academic or professional commitments and offers participants free access to all Teatro Coccia productions, allowing full immersion in the operatic world.

#### 3. Course Period and Format

The course will take place at Teatro Coccia in Novara, and will be organized into non-consecutive modules from **JANUARY 2026** to **DECEMBER 2026**. Each module will include written materials, and an assessment will be held at the end of each module to verify acquired competencies.

Lessons will be scheduled in agreement with the theatre's calendar, with a focus on opera productions, and planned on dates arranged according to availability and needs. For those unable to attend in-person theoretical-practical lessons, an online format will be made available, with the exception of work experience hours, which must be completed on-site during selected performances.

In the event of course interruption due to force majeure, theoretical lessons will continue online, while practical sessions and work experience will be postponed.

At the end of the course, a certificate of attendance will be issued, provided the conditions outlined in point 8 of this announcement are met. The most outstanding students may be involved in future collaborations or recommended for professional opportunities. The Academy maintains strong ties with its alumni, creating opportunities for debuts, concerts, and career referrals.

**Attendance is mandatory for at least 80% of the course. This attendance is also required for participation in any Teatro productions. Any circumstances that might partially hinder attendance must be communicated to the Academy's administration.**

## 4. Curriculum

The course consists of **150 hours of theoretical and practical lessons and 32 days of work experience**. The curriculum is designed to introduce students to working methods and the specific techniques of a stage makeup artist. While centered on the figure of the theatrical makeup artist, the skills acquired may also serve as a foundation for further development in television and film makeup and hairstyling.

Work experience days, embedded within the productions of Teatro Coccia, represent a crucial part of the training and are mandatory for all participants. Professionalism, dedication, and flexibility are required, as theatre productions often involve non-standard working hours.

The instructor will select candidates considered suitable for inclusion in scheduled productions. The nature of the engagement and any additional conditions will be discussed during the assignment of roles and tasks.

The lesson calendar is subject to change; any updates will be promptly communicated to students.
